VOL. VI. NO. 178 — FRESNO, CALIFORNIA, TUESDAY, MAY 2, 1893 — PRICE—5 CENTS

HELD UP THE STAGE

Evans and Sontag in a Playful Mood

SURPRISE A LOT OF TRAVELERS

They Were Evidently After a Detective, as No One Was Robbed.

Special to The Republican,

VISALIA, May 1.—Sontag and Evans have been heard from again.

Saturday afternoon they held up the Sequoia mills stage.

Their object was not robbery, for they took no money or valuables from the passengers.

After going through the various pockets and pocketbooks, evidently in quest of some official document, the stage was allowed to proceed.

The personnel of the stage was Tom Cook, driver; Thomas Graham of Santa Cruz, G. S. Clark of Visalia, A. H. Towne of Santa Cruz, and a fourth passenger, name unknown, but was a young man of about 18, from Hanford.

Clark had $18, the boy about $5. The other two had spent theirs.

The hold-up was in Tulare county, near the Fresno county line, and the brush is very dense.

Sontag stepped out first and then Evans immediately after.

When the

ORDER TO HALT WAS GIVEN,

Cook put on the brake and asked: "Do you mean it?" Sontag said: "You bet we do."

The passengers were told to get out with hands up. On the driver starting to come down, Sontag said, "Never mind, Tom, you are all right." Evans told the passengers, "If you are workingmen you are safe, but if you are officers you will lay in the road."

Evans than requested one passenger at a time to step out, take off his coat and vest and empty his pockets. He then looked through them for any papers or badges that might have an official appearance.

When he picked up Clark's purse he opened it and immediately closed it and put it in Clark's vest with the remark, "We are not running around the country robbing people and

"HAVE NEVER ROBBED A TRAIN."

The first two men that were searched were told to turn or wheel around. When Towne took off his coat and vest he stepped back. Evans forgot to make him Turn, and Towne felt relieved, for he had a large pistol in his hip pocket.

At first Evans seemed nervous; Sontag stood his position, as the driver says, like a statue.

While the inspection was going on the driver says: "Well, boys, you expressed a desire to seen Evans and Sontag. I guess you won't forget them."

On leaving Sontag said: "Tom, you will hear from us again;

"WHENEVER YOU SEE US, STOP."

The whole time took about five or six minutes. After the stage had started on its journey one of the passengers relieved the others by exclaiming: "Well, I'll be ——."

As usual, to make a story complete, Will Smith had to be brought in, but your correspondent is not in a position to deny the truth of the following in today's Times:

"WILL SMITH IS LUCK.

"Since writing the above it is learned that Detective Will Smith had intended to take Saturday's stage to the mills, but at the last moment changed his mind and left for San Francisco. There is food for speculation here. Did Evans and Sontag know that Smith intended to take that stage? If so, how did they find it out?

"A HEARTY SUPPER.

"Bill Workman, who came from Camp Badger today, says that Evans and Sontag took supper at Horton Philberts the same day they held up the stage. Philbert lives a few miles southeast of Camp Badger. He is well acquainted with the bandits, who made no pretense at disguising themselves. Philbert says the outlaws ate a hearty meal with their guns near at hand. They showed a preference for eggs and devoured quite a number of them."

VISALIA.

Bear Hunters Shadowed—Big Crops of Grain.

From The Republican's Special Correspondent

VISALIA, May 1.—The baseball season opened here today in a well contested game between Visalia and Tulare in favor of the home club; score, 7 to 6.

The Visalia band gave one of their delightful concerts this afternoon in the court house park, and was quite a treat. Weather warm and pleasant.

The Kings county election will take place on Tuesday, May 23d.

From all parts of the county reports are coming in that where grain has been irrigated the crops will be large, it pays to irrigate grain, and time and experience is proving the wisdom thereof.

Constable Douglass has returned from the mountains, where he has been hunting bear with Si Persina of Eshom valley. They did not meet with any success. The two bear hunters were followed by two officers, who thought that Douglass and Persina were packing provisions to Evans and Sontag.

Joseph Barnett of Fresno, a member of Company C, is in town. He is a brother of Mrs. C. B. Huss and Miss Carrie Barnett.

Captain O. Scribner spent Sunday with friends near Visalia.

H. C. Smith, the lumber king, was here Saturday.

FIRE IN HANFORD.

Several Buildings Destroyed Yesterday Morning.

Special to The Republican

HANFORD, May 1.—Hanford had an early fire today. At 6 o'clock this morning Brooms' lodging house and several adjoining buildings were destroyed by fire.

At Home Again.

SAN FRANCISCO, May 1.—Senator Stanford and Mrs. Stanford arrived today from Washington, and at once proceeded to their home at Palo Alto.

The Bensey Children.

There was a large attendance at the Bensey children's concert last night at the Baptist church. They gave an excellent performance and the audience was delighted. The little musicians are very talented and made music as few have heard before. They will play again at the Baptist church this afternoon at 4 o'clock, and in the evening.

VISALIA.

Result of the Exciting City Election Yesterday.

Special to The Republican.

VISALIA, May 1.—Our city election passed off quietly. The main fight was for city marshal, Fudge and Stewart running together in the count.

The following is the result:

Common Councilmen—C. A. Bisher, Dem.; W. W. Stousland, Dem.; J. C. Ward and Frank Henry, Non-Partisan, and W. F. Thomas, Dem.

City Marshal—T. M. Stewart, Non-Partisan.

City Treasurer — Susman Mitchell, Dem.

City Assessor—D. E. Perkins, Dem.

City Recorder—T. W. Holder, Dem.

Superintendant of Schools—W. B. Wallace Dem.

School Directors — N. O. Bradley, Dem., George A. Butz, Dem., Henry F. Perkins, Dem., T. W. Pendergrass, Dem. and Non-Partisan.

Stewart for City Marshal was elected by a majority of 6 and Mitchell for city treasurer by 14 majority. About 529 votes were polled.

A SUCCESSFUL EFFORT.

Recorder Clark Ties His First Hymenial Knot.

Manuel Laurence Avelar and Maria Plauceuna Bittencourt presented themselves before Recorder Clark yesterday afternoon as applicants for hymenial honors. His honor was somewhat embarrassed at first, as it was something new in the line of his official duties, but he determined to do the best he could, and as he wiped the unwelcome perspiration from his brow he proceeded to the task with heroic fortitude. It was a success, and he now invites all candidates to call at his office and see how neatly and briefly he can tie them up. He is tickled to death over the success of his first effort, and yearns for more.

CAUGHT IN ITS OWN TRAP.

Then Squealed Like a Drunken Hoodlum Nailed by the Police.

The Expositor of last evening took THE REPUBLICAN to task for publishing the hoax concerning the alleged capture of the Highland Chief, Sir Christopher Evans. THE REPUBLICAN comes back very aptly at the Expositor this morning for its publication of nearly three columns of sensational fiction about a number of crimes which the train robbers were said to have in contemplation. The Expositor is very neatly caught in a trap of its own setting.—Madera Tribune.

Buns for the Poor.

E. Riggins and F. H. Wilson, managers of the Odd Fellows picnic, brought to the office of the Associated Charities yesterday a large quantity of bread and buns left over from the tables of the picnickers. Superintendent Parsons engaged the services of Mr. Hall, the drayman, to distribute the bread to some thirty destitute families, and the gratitude and thanks of the recipients were so touching and the duty proved so pleasant that Mr. Hall refused to accept pay for his services. It took him the entire afternoon to deliver the goods.

Examiner Contest.

The contest for the Examiner's offer of a free trip to the World's Fair will begin before the county board of education this morning at 9 o'clock. There are already about fourteen pupils who have decided to enter the contest.

CORONER'S CASES.

A MAN KILLED ON THE PORTERVILLE BRANCH.

John Callison, a Reedley Saloonkeeper, Dies by His Own Hand.

About 9.30 o'clock Sunday morning the passenger train on the Porterville branch ran into a man and killed him. Both his legs were broken above the knee and his head was crushed, killing him instantly.

The body was brought to this city and taken to Stephens & Bean's undertaking establishment, where it was identified by some persons who had come to view the body as that of Perry Castecle. He worked here occasionally and was known by a number of people. The deceased was between 45 and 48 years of age.

When first seen by the engineer the man was walking on the ties at the side of the track. Seeing the train approach he began running and sprang to the middle of the track as if to cross it. The engineer had signaled, but without avail, and a few moments later struck the man. The accident happened about one and one-half miles from Fresno. The inquest will be held before Coroner Stephens at 9.30 o'clock this morning.

Coroner Stevens' services were required at Reedley yesterday, news having reached here in the morning that a man had committed suicide there.

The name of the man is John Callison, a saloon keeper. His body was found about 7 o'clock yesterday morning on the bank of the river. There was a bullet hole in his forehead, and near by lay the pistol with which he had been shot, a 45.90 Colt.

Callison had not been long in Reedley. He kept a saloon, having purchased the business recently. He was about 27 years of age and is believed to have no family. He told an acquaintance he was going to see a man living near the river, but the latter stated at the inquest that Callison had not been in his house.

The inquest was held yesterday afternoon at Reedley, and the testimony was such as to leave the jury in doubt as to whether Callison committed suicide or whether he had shot himself accidentally. They brought in a verdict, therefore, that he had come to his death by a gunshot wound inflicted by his own hand, whether intentionally or accidentally they could not determine.

The body will be sent to Modesto today, where Callison has relatives.

THE MAGICAL BUTTON

Touched by President Cleveland,

AND THE WORLD'S FAIR OPENED

A Quarter of a Million of People Witness the Greatest Event in History.

CHICAGO, May 1.—The electric age was ushered into being in this the last decade of the nineteenth century today, when President Cleveland, by pressing a button, started the mighty machinery and rushing waters and revolving wheels in the World's Columbian Exposition.

No exhibit of the fair that is to attract the thousands to this city from far and near for the next six months can be more marvelous than the magical effect following the solemn opening of the fair today.

Of the multitude of visitors some estimate the number as high as 200,000. Probably not one fully realized the full import or effect that was to come from the arrangement so cleverly devised in the opening of the exposition.

It was known in a vague way that the President was to press a golden key and that electric communication with the machinery was to start the fair, but no one realized how intricate was this machinery, how infinite the ramification of that electric spark until the great fountains threw up their geysers seventy feet into the air, and the rumble and hum of wheels in the manufacturers building, and the clatter of machinery. In all parts of that area of mile square or more, told the story of the final

CONSUMMATION OF SCIENTIFIC THOUGHT

and lifelessness started into being on every hand.

Draped statuary shed its veil and revealed to the world the artistic labors of the past eighteen months, and in a moment all that had been apathy and inert and inactive throughout the long hours of the morning, sprang into animated existence, and thrilled the multitude and crowned the triumph of the exposition.

In previous expositions the possibilities of electricity had been limited to a mere starting of engines in machinery hall, but in this there were thousands of servants to do its bidding, and from the great Corliss engine and mammoth foundations down to the minutest acts where power and touch were requisite, the magic of electricity did the duty of the hour.

THE CEREMONIES.

Soon after 9 o'clock President Cleveland and his associates appeared at the entrance of the Lexington hotel, and were conducted to carriages. When all was in readiness the procession moved down Michigan avenue, cheered by thousands who lined the curb. It turned into Grand Boulevard at Thirty-fifth street, into Washington park at Fifty-first street, from the park into Midway plaisance, and from it into the great white city, and made its way to the building where the ceremonies of the day were to take place.

The President and other notables came out upon the platform looking out upon the grand plaza, which was black with people, and a tumult of

CHEERS SHOOK THE AIR.

Shortly after 10 the ceremonies were commenced by prayer by the blind chaplain of the senate, Rev. W. H. Milburn.

After the prayer a rhymed prophesy was recited to an orchestral overture.

Director General Davis, as master of ceremonies, made the opening address.

After Davis' speech President Cleveland spoke of the result of American enterprise and the magnificent evidences of American skill with which he was surrounded.

As he concluded, the vast throng saw him extend his hand to the button of the golden key, which released the pent up steam in the great engines, set chimes to ringing and unfurled myriads of flags from the great buildings, and the stupendous enterprise, commemorating the 400th anniversary of Columbus' great achievement, was in full swing.

THEY DINED.

As soon as the attendance upon the formal opening of the exposition was over, President Cleveland and Governor Altgeld, Mayor Harrison and the Duke of Veragua, and other notables, were conducted to the dining hall on the third floor of the Administration building, where they were entertained at dinner by the World's Fair officials.

When dinner was over the party was conducted from the Administration building and driven around the grounds.

At the Manufacturers' building, which was the first place reached, the presidential party alighted at the main entrance and walked from one end of the monstrous edifice to the other. From here they drove around the grounds. After having thoroughly inspected the White City, President Cleveland and his party were driven to Grand Crossing where they took the train for Washington.

WOMEN SPEAK.

The most satisfactory features of the day's proceedings from a feminine standpoint was the dedication of the women's building. Mrs. Potter Palmer delivered the dedicatory address.

Addresses were also delivered by the following distinguished representatives of foreign nations: Spain, Duchess De Veragua; Italy, Countess Brazza; England, Mrs. Bedford Fenwick, Scotland and Ireland, Duchess of Aberdeen; Russia, Princess Schashovifsky.

Northey Dead.

THE mantle of Edwin Booth is too large to fit any acter now on the stage of this or any other country.

NOW that Evans and Sontag have become tired of inactivity and have begun to hunt for the detectives, interesting developments may be expected.

OHIO Democrats are having a hard time to find a candidate to pit against McKinley for governor. They evidently think that William has a pretty firm hold on the affections of the Buckeye folks.

THE Leader is the name of a new and very handsome weekly paper issued at Redlands on the 20th of April by James A. Doyle and Frank Kasson. It is in every respect a credit to that pretty town and to its publishers.

JUDGING from the reports, the people who gathered at Chicago yesterday to see the World's fair formally opened must have felt in a degree the keen pang of disappointment which fills to overflowing the cup of those who breathlessly watch the opening of the first watermelon of the season, only to discover that it has been picked too soon.

THE Canadian Pacific railway has a new and practical plan for increasing population in the rural districts. When a settler in the northwest territory wants to go back to Ontario to be married that railroad sells a matrimonial ticket at the usual rate, and on presenting the return coupon and a marriage certificate, he is entitled to free transportation for his bride.

YESTERDAY'S genial warmth and bright sunshine was thoroughly enjoyed by those who look upon May Day from the standpoint of pleasure seekers, but to many in this great agricultural region a day made less lovely by clouds and showers would have been far more acceptable. A little more rain is needed in the unirrigated districts to make the grain crop what it ought to be.

MR. BREX, manager of the California Fruit Union, expresses the opinion that the Chicago fair will be an injury rather than a help to the green fruit trade this summer, but he does not make it very clear why such result may be expected. There will certainly be as much fruit consumed as there would otherwise be, and unless the fair brings cholera with it we fail to understand why it will materially interfere with the fruit market.

HIRAM KERR proposes to make Chicago a present of his enormous gun after the exposition is over. It is possible that Chicago may decide to establish a world's museum with the hosts of articles that exhibitors may leave there rather than go to the expense of transporting them back to foreign countries. This may be rather an ungenerous insinuation, but the fact cannot be gainsaid that such givers will be actuated to some degree by economical considerations, especially in the bestowal of such ponderous tokens as the Krupp gun.

THE obstacle to the general substitution of aluminium for iron and steel in the arts has been the high cost of extracting it from the native clay. This has been partially overcome by progressive improvements in the process of manufacture, but still aluminium remains too costly to be thought of as a substitute for the baser metals, notwithstanding its advantages in other respects. The reported discovery of extraordinarily rich deposits of aluminium clay in Alabama and Georgia indicates a long step forward for the white metal. Six counties in these two states are said to be underlaid with bauxite ore, some of which has yielded as high as 48 per cent of pure aluminium. If the reports from these counties are reliable the aluminium age is approaching.

AT last one of the eminent chemists belonging to the French Academy of Sciences has been successful in artificially producing genuine diamonds. The discoverer is M. Henri Moissan. Several of his associates have been experimenting in this direction for years, and black crystals of pure carbon were produced some months ago, but M. Moissan's achievement is a production of perfect crystals equal in purity to the diamonds found in the mines of Africa. To be sure the crystals are very small, and it may be that that the production of diamonds large enough to be of serious importance to the world of commerce in jewelry is still very far off, but the fact that so much has been done will undoubtedly set dozens of chemists to experimenting in other parts of the world, and it may be that in time artificial diamonds will be produced galore.

HENRY WATTERSON has given the public an outline of what he thinks the action of the present administration should be relative to the tariff. He expresses the hope that the party will be honest in carrying out pledges, and says:

"The time for compromise has passed, and every duty laid must be for revenue only, and where revenue begins protection ends. First," says Mr. Watterson, "abolish the sugar subsidy, and raise $25,000,000 by a sugar tax. Raise, if needed, $25,000,000 by a tax on coffee, and if there is still a yawning chasm between receipts and expenditures, which economy cannot bridge, raise $25,000,000 by a tax on tea." Then, "give us a revenue tariff on woolens, on linen, on cutlery, on carpets, on clothing, on tools of every kind and on household utensils of all descriptions. Then

"We will be happy yet.
You bet."

No doubt Henry would be made temporarily happy by the realization of the dream of his political life, but there are a very large number of equally intelligent and patriotic citizens who will look upon the adoption of such a tariff with the gravest apprehension.

A RECENT blue book on strikes and lockouts issued by the British government presents a dismal picture of the condition of labor in the home of free trade. It appears that a marked depression in the labor market set in in 1890, and has grown in intensity ever since. In that year the average percentage of unemployed in various trades was 2.02 per cent. In 1891 the average percentage had risen to 3.30 and in 1892 to 5.25. The blue book predicts that the depression will continue throughout 1893, as, in fact, we know from other sources that it has continued, and is far more severe now than at any previous time. There were 393 British strikes, affecting 4,507 industries, in 1891. In 676 of the principal strikes 260,855 persons were involved. Of these 68,247 were successful, 98,127 partially so and 92,763 entirely failed. It is estimated that the loss in wages alone was $7,500,000 during the year. If the strike statistics for 1892 and up to the present time were available they would undoubtedly show a continuous growth in number of disturbances, wage reductions and losses of labor. Witness, for example, the Lancashire cotton strike just ended and the gigantic Hull strike now in progress. Free trade in England does not prevent strikes nor does it crush the trusts.

Early Rising For Cold Mornings.

Maine people are very early risers, and just now the scarcity of daylight leads to some troublesome mistakes. A Belfast woman, whose sons work in a factory, arose the other morning, built a fire, got breakfast and called the members of her family, who were all ready to sit down to breakfast, when one of the boys looked at his watch and found it to be but five minutes past 3, standard. As the factory wasn't putting in extra time on that end of the day, all again sought their beds for another nap.

About 4 o'clock one of the recent coldest mornings the night watchman of the Stone mill at Dexter was surprised by the appearance at the mill of one of the workmen, who came all ready to begin his day's work. "I hated to get up like thunder, 'cause it's so cold," he explained as he came in. "Why ain't you lighted up?" When the watchman convinced him that he had got out of his warm nest about two hours too early, the warmth of his feelings, as expressed in words, gave the mercury quite a rise in that vicinity.—Bangor (Me.) Commercial.

Opium a Cause of Suicide.

"I have been taking opium for the last four years. It was on leaving the army that I met a young man to whom I explained that I suffered from severe headache. He advised me to take opium, and I said to him, 'Won't it grow upon me?' He replied, 'No.' I have heard since that he hanged himself. I took to eating the drug, and from day to day I swallowed increased doses until I could take one dram every day. I used to roll it up into pills. When my money became short, and I was unable to get any more opium my life became a misery. I craved for it without effect, and as I could not exist any longer without it I cut my throat." This was the statement made by one George Hall, on whom an inquest was held at Burlington yesterday, to a doctor. This doctor said 10 grains under ordinary circumstances were fatal. "Suicide while temporarily insane," was the verdict. Pall Mall Gazette.

Notice to Road Contractors.

In the Board of Supervisors

NOTICE IS HEREBY GIVEN THAT PURsuant to the provisions of Section 2691, subdivision 5, and Section 2696, subdivision 2, of the Political Code of the State of California, the Board of Supervisors of Fresno County will receive sealed bids up to and including the 12th day of May, 1893, at 2 o'clock p.m. of said day, for the construction of a wagon road as per plans and specifications to be seen at the office of the County Surveyor of Fresno County.

Point of commencement of said road is at the end of the present road at the SW corner of the NE¼ of the SE¼ of section 33, in twp 13 S, r 22 e, and continuing on a survey as located by J. S. Bedford, in a general course as follows, to section 5, twp 14 s, r 23 e; thence on a survey located by George L. Hoxie, County Surveyor, from said point in section 5 to the Sequoia Mill, in section 25, twp 13 s, r 25 e, a total distance of 12½ miles.

Each bid is to be accompanied by a deposit or certified check in the sum of $250, as security that the successful bidder will enter into a contract with the Board, together with a good and sufficient bond to be approved by said Board, in an amount equal to 50 per cent of the contract price, conditioned for the faithful performance of the contract.

The Board reserves the right to reject any or all bids. Attest: W. A. SHEPHERD, Clerk.

THE 400 SHOCKED

A Serious Charge By Rev. J. H. Collins.

THE 89-90 CLUB INDIGNANT

A Fair Guest of the Club Accused Publicly of Drunkenness.

The members of the 89-90 Club are indignant. The reason, briefly put, is that Rev. J. H. Collins stated in his sermon last Sunday morning that he saw a female member of Fresno's 400 drunk at the Hughes on the night of the 89-90 dance. Horrors!

Never before has any one dared to make such a charge against one of the 89-90 people in connection with their socials. No wonder, therefore, that the unfortunates without the pale felt their flesh creep when they heard of the audacity of the minister, and wondered what fate the club had in store for him. Was it really possible that one of the club's fair guests had overestimated her vinous capacity? And, if so, would the club permit the finger of scorn to be pointed at her.

As for the 89-90s, the wild and torrid ebullitions of an Iceland geyser are as nothing to the boiling rage that is seething the insides of the club's members. They hardly knew whether to believe Mr. Collins had said such a thing, and being put in a state of certainty as to that point, they became mute with surprise and grief.

Not satisfied with the rumors concerning Rev. J. H. Collin's utterances, a REPUBLICAN reporter went to the Congregational parsonage last evening and asked the minister to repeat what he had said in his sermon about the lady in question. Mr. Collins complied with the reporter's request very readily.

"The subject of my sermon Sunday morning was, 'What Is a Christian?' I emphasized two points—first, that a Christian must believe in the Lord Jesus Christ, which brought him into sonship with God and consequently into brotherhood with all mankind.

"I then took up the question of the different societies. I referred to the two classes, the wealthy and the laboring class; how the former looked with contempt upon the latter because they had to do manual labor for a living. The standing of a man, I contended, should be based on his faithfulness to God and his willingness to consider the welfare of others, and not on what his position in society may be. As the politician talks tariff for revenue only, so many people are Christians for society only. This led me to mention Congregationalists who have come to Fresno from other places, but do not attend their church here because our church members are plain, every-day people.

"I then referred to the would-be 400 of Fresno, saying that I had seen enough drunken men and women to know a drunken woman when I saw one; and that I was satisfied that I saw one of the female members of the 400 in the parlors of the Hughes hotel in an intoxicated condition. I could see no difference between a drunken woman in silks and diamonds and one clad in rags."

Referring to this part of the sermon Mr. Collins stated that he saw the young woman alluded to on the night of the 89-90 dance in the Hughes parlor. There was wine in the room, and the fumes were so strong that several ladies, delegates to the Christian Endeavor convention, could not endure the atmosphere and went outside. Considerable wine had been spilled on the table and floor.

The minister was very earnest, and was positive he had not made any mistake as to the young lady's condition. He stated, moreover, that as soon as he had finished his present series of sermons he would take up for consideration the sunny side of social life among the 400.

Not many members of the 89-90 club could be found yesterday, but those who were seen said they knew nothing about anyone having been drunk.

President L. W. Mauldin was very indignant and considered Mr. Collins' charge an outrage. He had seen no lady drunk at the dance, though he had heard one of the fair guests had fainted. He stated that no intoxicating liquors had been served at the social.

"Was anybody drunk at the 89-90 Club's social?" was the delicate question put to George Bangle. Mr. Bangle's eyes became as large as saucers, so surprised was he. Told of Mr. Collins' charge, he stated he knew of no one having been intoxicated, though he had been told a young lady had been suddenly seized with faintness. There were no intoxicants served with the refreshments.

Charles Riege said: "I know of no one having been under the influence of liquor at the party. If any wine was served in the parlor it was by private parties and not by the club. There was nothing but water, lemonade and coffee served with the refreshments. Mr. Collin's charge is a serious one and reflects upon all the members of the club. This is plainly unjust, and if he knows of any one having been intoxicated he should give the person's name, and not subject every person connected with the club to such a suspicion."

From other sources it was learned that, while no intoxicants were served at the last party, the club occasionally provided liquid refreshments—not as strong by a good deal as congressional tea, but not entirely harmless either.

"If taken in large quantities," said Mr. Fiester, "it would be likely sooner to cause belly ache than intoxication."

CUMBERLAND PRESBYTERIANS

Their New Church Dedicated Last Sunday Morning.

The dedication of the Cumberland Presbyterian church took place Sunday morning at 11 o'clock.

A good audience of happy people assembled to take part in the service. Rev. Mr. Cowan of Stockton was present and delivered an instructive and impressive sermon, answering the question negatively and affirmatively, "What is the Church For?"

At the close of the sermon Mr. Cowan proceeded to raise money to meet the balance unsubscribed on the building, which was done in a very few minutes, and the pastor, assisted by Rev. Cornelius Yager, then dedicated the house to the service of God.

This church has thus made a large stride toward success, and now takes its place with the other churches of the city in the great work of winning men to Christ, and thus helping to lift humanity to a higher plan of life.

The afternoon and evening services were equally interesting. Every one seemed to rejoice that another house had been builded unto the Lord. Mr. Cowan delivered another interesting sermon on "Nearness to God, the Condition of National, Ecclesiastical and Personal Power."

He will speak again tonight at 7.45. Every one who hears this sermon will be benefited, as the speaker is a man of learning and culture and great spiritual power.

IN THE COURTS.

Matters Disposed of in the Several Departments.

Judge Harris yesterday gave judgment for plaintiff in the suit to foreclose mortgage of Joseph Brownstone vs. P. D. Bozeman et al.

The following cases were also called in Judge Harris' department of the superior court:

D. G. Kent et al. vs. W. M. Williams et al.; by stipulation hearing of motion to set aside default continued one week.

B. P. Oliver, trustee, vs. Thomas E. Hughes et al.; demurrer of defendant, Thomas E. Hughes, overruled and ten days to answer.

John Scheid vs. W. M. Williams, hearing of motion to submit cause for decision continued till next Monday, by consent.

Edgar A. Cohen vs. A. D. Barling et al.; hearing of motion to strike out continued, by consent, till next Monday.

Antonio Sarment vs. Antone Joseph; demurrer to amended complaint overruled and ten days to answer.

Judge Webb yesterday set the trial of the case of Grace Murphy against J. N. Smith for May 15th.

In the case of J. G. Wofford vs. Loo Lung, Judge Webb decided that plaintiff take nothing and that each party pay his own costs.

G. H. Heisinger vs. G. W. Tait, appellant; motion to reopen case denied.

THE GOOD TEMPLARS.

A River Bank Picnic With Music and Speeches.

The Fresno District Lodge, I.O.G.T., will meet at Reedley next Saturday morning at 9 o'clock. The district lodge also will give a public basket picnic on the banks of the Kings river near the railroad crossing on Friday.

A fine literary program has been arranged to include an address by Mrs. M. E. Richardson, superintendent of the grand lodge of California, and by that popular speaker, Mrs. J. C. Stone, who has won the highest encomiums of the press wherever she has been heard. There will also be singing by Mrs. J. W. Evans, Fresno's favorite vocalist, and by others. Special cars have been chartered at the rate of one dollar for the round trip.

"Patience."

The sale of seats for the performance of "Patience" for the benefit of the Associated Charities, which is to be given at the Barton on Friday evening next, began yesterday and a large number of seats have been purchased. It would not be surprising if there would not be a larger audience on the repetition than there was at the first performance. Mr. Price will sing the part of the Duke.

FRESNO'S FRUIT.

IT SHOULD BE PROFUSELY EXHIBITED AT CHICAGO.

What a Fresnoan Saw at the World's Fair Grounds—Valuable Suggestions.

EDITOR REPUBLICAN.—I was on the World's Fair grounds on April 20th, and I will send you a few of my observations. Two things struck me very forcibly, one was, the grounds are very wet and muddy, and the other that everything was very incomplete. Some of the space shows no sign of being occupied. In my opinion the agricultural exhibit will be the most attractive, and sad to relate California had done absolutely nothing up to the 20th, when she is capable of making the finest agricultural exhibit of any of the states.

A good many of the states had completed their work, notably Ohio, Iowa and Wisconsin. In my opinion the California state building will have as many visitors as any two state buildings on the ground, one reason is its location, and another, because eastern people are eager to see something from the Golden State.

Fresno county has a golden opportunity for advertising, and I wanted to make a suggestion regarding your exhibit. If they are pursuing the course I mention, well and good.

I notice the English railroads are having fine rooms fitted up with larger and attractive photographs of scenery, adjacent to their lines and it struck me as being a very fine thing for Fresno. People are anxious to see where all the fine fruit is grown and what the country looks like. You should have photographs of vineyards, mountain scenery—clusters of fruit, farm products, and a good many pictures of Fresno city, different buildings including your school houses, banks, court house, etc., also methods of harvesting grain.

There is no better town in the west, than Fresno and you should take a local pride in exhibiting it by photographs.

Later in the season you should keep fresh fruit on hand. Show to the world that you love your town and county and people will come and live with you. The committee may be doing all this. If not, it is worthy their attention.

The pictures should be large and nicely framed. Hoping to meet any Fresno friends at the Fair, I remain yours in haste. FRANCIS D. POOLE.

At a meeting of the trustees of Orange Center school district on Friday, April 28th, it was ordered to call a meeting of all the taxpayers on Saturday, May 6th, 1893, at 7.30 to determine whether to build a new school house or repair the old one.

THE COUNCIL.

No Changes Made Last Night in Officials.

THROUGH LACK OF FORESIGHT

A Big Meeting—The City's Finances at a Low Ebb—Many Funds Overdrawn.

The minutes of the two preceding meetings of the city trustees were very voluminous covering thirty-six pages of the minute book and occupied about an hour and a half in the reading. City Clerk Shanklin had a pocket full of Fresno lemons handy and kept his whistle moistened successfully during the tedious task.

President Church sat throughout the long reading with the stoicism of a Spartan, while 212 candidates for positions on the police force stood patiently outside the railing surveying the new trustees with hungry and affectionate glances.

Ex-city Clerk Dennett reveled in the joys that were, sitting behind Clerk Shanklin, and enjoyed the novel sensation after eight years deprivation, of hearing the minutes of the trustees read by somebody else.

Mr. Adams bore his new honors meekly, while Mr. Grayeroft looked as if he had been a city trustee all his life.

Joseph Spinney, called by the boys "Joe" for short, sported an extra curl to his mustache and fascinated the beholders with the gay, though raven soap locks on his temples. He gazed with complacency upon the 212 applicants for the star, but returned only a stony and sphynx-like stare in response to the confidential winks bestowed upon him by the boys. This plunged them into a sea of despondency and when Joe saw that they were feeling blue, he smiled again and lo! there was sunshine, blessed sunshine, thrice blessed sunshine in their souls.

Ex-City Attorney Graham sat side by side with City Attorney Risley, Mr. Graham wearing the courtly air of the gentleman from the sunny South, and Mr. Risley looking on with the stern Puritanical gravity that distinguishes the man from Connecticut, which place he honored by being born there.

An influential newspaper can always afford to say a nice, sweet thing or two about a man after he retires from office on the principle expressed in the adage, "De Mortuis Nil Nisi Bonum."

But shall not the dead rise again?

Not for the next two years, my son, and then they may rise as beautiful phoenixes from their political ashes.

PETITIONS.

The petition of L. P. Fleischmann for permission to stand a wooden boot big enough for the Colossus of Rhodes on the curbstone in front of his place of business was granted by the deciding vote of President Church.

A petition from THE REPUBLICAN for permission to erect a bulletin board for news in front of the publication office on Tulare street and one in front of Level & Langley's employment office on I street was granted.

C. T. Cearley petitioned to be allowed to erect a signboard in front of his news depot on I street. Granted.

A Bradovich asked for $2,000 damages, alleged to have been caused by flood waters in his cellar.

Ex-Street Superintendent James explained that Mr. Bradovich had agreed to forego all claims for damages if the city would pump the water out of his cellar. The city had done so at an expense of $200.

The petition was referred to the street committee.

ELECTRIC LIGHTS.

A petition for an electric lamp at the corner of J and Amador streets was referred to the street committee.

H. F. Clifton asked for the position of gardener in the city park.

A. C. Crossman asked to be appointed clerk at the police headquarters.

Applications for positions as policeman were received from John L. Best (colored) and Silas P. Lyons.

All those were placed on file.

STREET WORK.

Two weeks extension of time was granted to the contractor for grading R street.

The petition of J. F. McDonald and others to postpone certain street work until fall was denied.

Dr. Gilstrap asked to have his license reduced from $10 per day to $1 per day for extracting teeth on the streets free of charge.

An unknown young man addressed the board on behalf of Dr. Gilstrap and said that the Doctor had extracted 2500 teeth this year free of charge.

Herrington moved to grant Dr. Gilstrap's request. The motion was seconded by Spinney and was unanimously granted.

A petition was received recommending Charles A. Gray for the position of janitor of the city hall. Also one for Charles T. Smith.

GARDENER OF CITY PARK.

R. O. Disturnell, Miles Robinson, Aaron Noble, Joseph Smith and Fred Watson were recommended for the position of gardener on the City park. Smith's application stated that he understood that Adams and Herrington would vote for Smith.

This caused much laughter.

WATCHMAN IN THE PARK.

Pressley P. Payne asked to be appointed watchman at the City park. Also Michael O'Connor, P. Hurlbert, M. Lauer, William Lynch, E. Heyc, John W. Van Tassell and C. D. Bellinger.

Ex-Trustee Cole suggested that the office of park gardener be created at a salary of $50 with the powers of a special policeman.

The suggestion was adopted.

Grayeroft nominated H. F. Clifton.

Spinney nominated O. D. Bollinger.

Adams nominated Joseph Smith.

Mr. Smith received three votes on the first ballot and was declared elected.

City Attorney Risley said that he did not think the board had a right to create the office of city gardener. That position was simply that of an employe. A resolution appointing Mr. Smith city gardener and special policeman was adopted.

OFFICIAL REPORTS.

Superintendent of Streets Jones reported having received $103.10 cash for street work.

City Clerk Dennett reported having sold eighteen dog tags at $36, less $9 poundmaster's commissions, commissions on stationary, election supplies, etc., $26.05.

The treasurer's report shows the following: General fund $10,660.57, street fund overdrawn $216.79, sewer fund $1118.20, library $3443.99, school overdrawn $2184.37, bond fund No. 2, $1393.33, M. I. No. 1 $1194.37, M. I. No. 2 $4888.97, M. I. No. 3 $1198.76, M. I. No. 4 $1252.69, M. I. No. 5 overdrawn $6.58, balance on hand $21,882.80.

THE FINANCES.

City Clerk Dennett reported as follows: Receipts, general fund $37,413.82, balance on hand $10,660.57, unpaid warrants $71.10, street fund receipts $13,170.54, expenditures $13,362.38, overdrawn $191.84, school fund receipts $14,108.53, expenditures $16,292.90, overdrawn $2184.37; sewer fund receipts $4387.00, expenditures $3269.47, balance on hand $1118.20; library fund receipts $4959.32, balance $3443.99; municipal improvement fund No. 1, balance on hand $1194, ditto No. 2 balance on hand $4888.07, ditto No. 3 balance on hand $1198.75, ditto No. 4 balance on hand $1252.68, ditto No. 5 overdrawn $6.58; bond fund No. 3, balance on hand $1393.33, fund No. 5 $0; total balance on hand January 1, 1893, $39,981.11; total amount of receipts $32,097.40, total $132,077.51, total disbursements $109,310.44; balance on hand in the treasury on all funds, $22,766.07.

This report contains $894.25 cash on hand more than reported in treasurer's report, he having closed his accounts before the deposits were made as follows: J. D. Morgan for poll tax $600, less commission to Marshal $90, total $510; for licenses for April $287.17; J. D. Jones, advertising sewer fund $77.00; total $894.25.

City Marshal Morgan reported having collected $281.15 for licenses for the month of April.

The bond of the city marshal for $50,000 was approved.

The bonds of the remaining city officials were approved. Also the contract and bid of the water company to furnish water for street sprinkling.

POLICEMEN TO FILE BONDS.

An ordinance was read prescribing that each policeman shall file a bond with two sureties in $1,000 each for the faithful performance of their duties, and referred to the city attorney.

STREET WORK.

An ordinance for street work was adopted as follows: To grade P street from Fresno to Tulare street.

AN EMPTY STREET FUND.

On motion of Herrington, $2,000 was transferred from the general fund to the street fund, the street fund having been overdrawn.

STREET SPRINKLING.

Street Superintendent Bilby reported that street sprinkling was started yesterday with six wagons. He recommended ten additional standpipes; half the time that could be spent in sprinkling is now lost in going to and from the standpipes.

On motion of Herrington the council decided to erect three additional standpipes at places to be designated by the street superintendent.

A ROSER.

All the routine business of the board having been disposed of the board took a recess of five minutes on motion of Grayeroft. In the interim City Attorney Risley called President Church's attention to the fact that the paid officials of the fire department and the remainder of the old police department had worked one day in the month of May and would therefore be entitled to a full month's pay if they were discharged without cause. It was therefore agreed that nothing should be done in the matter of official decapitation until the next meeting of the council. This change in the plans was not known to the anxious 212 outside the railing, and there was consequently observable a straining of ears and an expression of intense expectancy, but when nothing was said about the police force the 212 looked as if a cyclone had struck the building.

City Marshal Morgan, in accordance with custom, was allowed a deputy at a salary of $50 to assist him in collecting the personal property taxes. Mr. Morgan appointed City Assessor Elliott as his deputy for that purpose.

The bills of Donahoo, Emmons & Co. and M. Pullman were referred to the street committee.

Mr. Grayeroft moved that the city clerk be requested to furnish a statement to the council at its next meeting of the total cost of the city park. Carried.

Street Superintendent Bilby asked the board to retain J. D. Jones for two weeks to assist him in the work of his office. The request was granted.

Mr. Grayeroft asked that ex-City Clerk Dennett be retained for thirty days to assist City Clerk Shanklin in his work, his salary to be $100, of which Mr. Shanklin agreed to pay $25. Granted.

Adjourned to May 15th.

Of all the popular American airs, the favorites of the great violinist, are "Suwanee River" and "Dixey." It recently came to the notice of Mr. Remenyi that the author of "Dixey," Mr. Dan Emmett, was living in poverty in an obscure town in Ohio. The fact so touched the heart of the genial genius, that he immediately set about to raise a fund for his relief, and started it himself with a contribution of $50. That a man who could compose "Dixey" should live in poverty in enlightened America was to him something unaccountable."

CHURCH AND STATE

Interisting Sermon By Rev. Dr. DeWitt.

NO DANGER OF COALITION

The Pope's Forged Encyclical—Evils of the Political Machine—A Liberal Press.

The announcement that Rev. Dr. DeWitt would preach on "Church and State" and that the Beasey children would give a sample of their skill on the violin crowded the First Baptist church last Sunday night.

Before beginning the services the reverend gentleman considerately announced that he had received a dispatch from the children's agent announcing that the children had been detained over at Hanford for a sacred concert that evening, and therefore would not be in Fresno until yesterday. The announcement was made that they would play in the Baptist church this afternoon and evening and on tomorrow evening.

Dr. DeWitt in commencing his sermon, from which, owing to lack of space, but a few fragments are quoted, remarked that he had invited the attendance of Seventh Day Adventists, not for the purpose of antagonizing them, but for the purpose of showing them wherein we agree.

The pages of history show that freedom has had its birth in the Christian church. Its friends, its advocates are there. I am confident that the first election mentioned in the Acts of the Apostles wherein the church officers were selected was really and essentially a popular election.

Freedom died when the so-called Senate of Rome attempted to voice the opinions of the people. It would have had no resurrection and you and I would be strangers to secular and religious liberty were it not that the germs of life were in the church. There it was preserved through the ages and from thence it sprung forth again. To the church therefore, you must look for freedom instead of fearing that the church will be likely to deprive you of it.

Something has been said regarding the attitude of the Roman Catholic church towards civil and religious liberty. The man who fears the Roman Catholics today, is the man who has read very little of modern history and who knows even less of the present condition of the world. If there is any danger from the Roman Catholics, there is just as much danger from the Methodist church and the Baptist church. The religious tyranny which prevailed in older times can never be revived. The world has outgrown it.

The speaker adverted to the time when in Virginia, ministers of the gospel were imprisoned and whipped and banished for preaching the word of the son of God.

A high tribute was paid by the speaker to the sentiments expressed in the constitution of the United States. It is the most masterly instrument ever framed by mortal man since the morning stars first sang together.

The speaker had had placed in his hands the other day one of the most infamous pieces of forgery he ever saw in his life. It purported to be a letter from the Pope of Rome, abolishing all subjects of the Pope from loyalty and obedience to the government of the United States. It was a shameful forgery. However wrong the Pope may be on doctrinal points he is not an idiot. There is not a loyal, intelligent Roman Catholic in the world that would not disown him and forever take from him the crown of infallibility for writing such a letter. I honestly do not believe that there is an intelligent man in the world that thinks there is any danger of returning to those dark days of cruelty and oppression.

Church and state have been separated for good. There never will be a union between church and state; don't you frighten yourselves with any bugbear of that kind. The danger is said to be that the churches are falling apart, and that we must have a state church so as to keep us together. Now, the fact is that one of the greatest lights of Christendom in this age is this multiplicity of denominations, that simple and misguided people are so much afraid about.

Do you know that bishops today are nothing but a kind of peripatetic preacher—a kind of tramp traveling over the country! The fact that today we are not under the dictates of bishops and high potentates of the church has given you independent convictions and principles and the habit of intelligent thought. It is too late now to be ruled by a centralized power or to be spiritually governed by bishops or other potentates. A man must lay aside his robes today, he must speak his honest convictions and he must abide within the realm of sober thought. The fact that men think and are free is the very foundation of denominationalism. Higher today than the bishops or any other officials of the church is the Sunday school teacher. He is a teacher who teaches simply plain and important truths.

When the people are intelligent and virtuous and left alone to judge of the dictates of their own mind then indeed the voice of the people becomes the voice of God. There is no voice to which I would listen with profounder reverence than the voice of the people if they were not under the domination of demagogues. There should be more moral training in our schools. Statistics show that 78 per cent of the convicts in our state prisons are graduates from high schools and colleges and are well educated. We are educating today a nation of tramps, and the remedy is moral and religious instruction in the schools. The people must be educated to a sense of virtue, justice and right, and then we need not fear any danger. What we have most to fear today is the machination of the political machine.

We have a great horde of hungry politicians who use the machinery of politics for no purpose at all except to gratify their appetites. It is despotism. If I want to pick out a man for a despot I want to select the man who has the least reason for seeking an office. I would choose an educated man of wealth rather than an ignorant political demagogue who could not write his name when he caught hold of the political machine. When Cæsar reigned with the utmost despotism he put on a white robe and went among the people asking them for their votes, and when these politicians are enabled to go from house to house in the interest of the machine you have nothing but despotism.

Under the present system of politics there are a few individuals who hold all the power. I thank God for the Australian ballot, and I thank God that today a man may vote an honest ballot if he wants to, without a lot of upstarts looking over his shoulder as he marks his ticket.

I was in Jacksonville a few years ago when they started a reform party, and the leaders and workers of this reform party commenced buying votes at three dollars apiece and ran the price up to $25. At our municipal election men were paid money not to vote. This is not a government of the people and by the people.

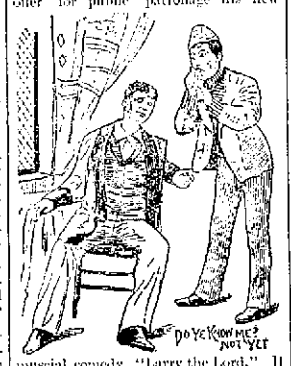
I have been asked frequently, "What do you think of the press?" Now I may say it freely that I have never been in any part of the United States where the press has been as fair and as clean and as true to the church of Christ as it has been in Fresno with all our faults. It is the first time in my life that I have found the daily press willing to publish anything that would help the church.

But suppose it were otherwise, I still believe that the press today is the bulwark of our safety; I believe it is a mighty engine of power for God. If I was not a minister of the gospel I would like to be a newspaper man. The press teaches men how to think for themselves, and if it leads your judgment wrong today it has taught you nevertheless to exercise your judgment, and that is an important thing.

The speaker closed by quoting statistics showing the growth of the Christian church. It required eighteen centuries for it to gather together 200,000,000 of believers, while in the last ninety-three years it has increased its membership to nearly 500,000,000.

R. E. Graham in "Larry the Lord."

Farce of the more legitimate character will be seen at the Barton this evening, when the well-known comedian, R. E. Graham, will for the first time here offer for public patronage his new



musical comedy, "Larry the Lord." It is rather a new departure for Mr. Graham, as he has in the past been recognized only in opera. He, however, introduces a very considerable number of musical selections in his new piece, and these do much, it is said, towards the success of his adventure. There are some twenty-two numbers, which combine the musical efforts of Messrs. Faucher and Perlet and Mr. Graham himself. The story of the farce is not a new one, it having been taken from the French, and tells of the exchange of positions between the master and his servant. From this many complications of extremely laughable character arise.

J. W. Reese's House Plundered.

Last Saturday evening while J. W. Reese was attending the reunion of veterans a thief entered his residence and stole between forty and fifty dollars in silver and small gold and also a few other articles of value.

Why Foam Is White.

The question as to why all foam is white is not an easy one to understand, but the fact is that foam is always white, whatever may be the color of the beverage itself. The froth produced on a bottle of the blackest ink is white, and would be perfectly so were it not tinged to a certain extent by particles of the beverage which the bubbles hold in mechanical suspension. As to the cause of this whiteness, it is sufficient to say that it is due to the large number of reflecting surfaces formed by the foam, for it is these surfaces which, by reflecting the light, produce upon our eyes the impression of white.

If we remember that all bodies owe their colors to the rays of light, which they cannot absorb, and all bodies which reflect all the light they receive, without absorbing any, appear perfectly white, we shall be prepared to understand how the multitude of reflecting surfaces formed by the foam, and which do not absorb any light, must necessarily give the froth a white appearance. It is for the same reason that any very fine powder appears white, even the blackest marble, when ground to dust, losing every trace of its original color.—Thomas Warwick in Confectioners' Journal.

A Faithful Eskimo Dog.

Fidelity is the chief virtue of the Eskimo dog. One of my leaders when crippled by starvation and overwork had to be abandoned because he refused to be carried on the sled. I left him behind feeling as if I were tearing myself away from a dear friend, but before we continued our way I gave him the last fish we had, depriving ourselves of that much food. Three days afterward, while we were encamping at the Eskimo village of Kahonak, the dog reached us, having followed our trail with bleeding feet and emaciated body for eighty-five miles, forty-five of which consisted of crossing the surface of the great Lake Illamna in a "poorga" (a rather exaggerated species of blizzard).—A. B. Schanz in Milwaukee Sentinel.

Thought Himself Qualified.

A contest arose Saturday night in an Auburn barber shop about the comparative honesty of the French and English laboring man. One of the disputants was a Frenchman, who eloquently extolled the merits of the French laboring man. An interested listener thought he would take part in the discussion, and prefaced his remarks thus: "Now, I suppose I'm part French myself. My father and mother were both French."—Bangor Commercial.

Bees in the Far North.

Lieutenant Peary, the arctic explorer, saw bumblebees as far north as latitude 61 degs. 37 mins. in Greenland, and stated that bluebottle flies were as common that far north as they are in Philadelphia around a butcher shop. The latitude mentioned is within about 580 miles of the north pole.—Entomological News.

Very Thorough.

Small Son (just back from a visit)—I guess so. I was just as uncomfortable with her as I am with you.—Good News.

MILL DITCH CASE.

OPINION OF THE SUPREME COURT.

Reasons for Reversing the Decision of the Lower Court—Inconsistent Findings.

Following is part of the recent decision of the supreme court in the case of the City of Fresno, plaintiff and respondent, vs. the Fresno Canal and Irrigation Company, defendant and appellant. This action was brought to obtain a decree abating as a nuisance the canal known as the Mill Ditch. Says the decision:

"The court finds that 'about the year 1880, before the incorporation of the city of Fresno, a canal or a ditch was built through certain streets of said city by the defendant, the Fresno Canal and Irrigation Company, and has been maintained and used by said company ever since, uninterruptedly, continuously and adversely to all the world, but without color of title.' The words 'without color of title' are of no significance here, because the defendant had actual and not merely constructive possession of the canal. And, of course, as against private persons the said defendant would have acquired a perfect title by prescription. * * *

"The court finds 'that said canal is an irrigating ditch, that it flows out west of the city and is there distributed, and supplies water for the irrigation of many farms. That within the city extensive and costly mills for the purpose of crushing grain and manufacturing flour have been erected on its banks to be operated by its waters. That these industries would be injured should the canal be prevented from running within the city. The court also, in finding 14, finds that said canal can be constructed below the surface of said street, and covered up in such a manner that the surface of said street can be restored to its former condition, so that it will not be an obstruction to the free use and enjoyment of and travel of said street. The constitution of the state, section 1 of article xiv, declares that the use of all water now appropriated, or that may be hereafter appropriated, for sale, rental or distribution is hereby declared to be a public use. See also People vs. Stephens, 62 Cal., 209; McCrary vs. Beaudry, 67 Cal., 120; City of Fresno vs. Canal Co., 68 Cal., 359. And the statutes of the state recognizes ditches and canals of public use, and regulate such use. For instance, section 551 of the Civil Code provides that where they cross, or are on the lines of public highways, their works must be so laid and constructed as not to obstruct public highways. The canal of the defendants was constructed in the face of, and without objection by, the supervisors of the county or the public; and the city of Fresno, when it was incorporated, found said canal occupying parts of certain streets in the city which it then took control of. Under these circumstances, if the nuisance consists merely in the manner in which the canal is conducted and managed, it is a nuisance which can be remedied without a total destruction of the property; and the rules stated in McMenomy vs. Band, 87 Cal., 134, should be applied—that is, the appellant should be enjoined from conducting the canal in such a manner as to make it a nuisance, but a total destruction of the property should not be decreed. This rule has been applied as against a public corporation. In Shepard vs. People, 40 Mich., 237, the appellant was indicted for causing a public nuisance within the city of Pontiac by maintaining a milldam therein; and the trial court in its judgment ordered that the dam should be removed. But the appellate court reversed that part of the judgment, saying: 'Property is not to be destroyed until its destruction is lawfully ascertained to be necessary in order to stop the nuisance, and then no other and no more is to be destroyed than is thus determined to be needful to affect that object.' Many cases are cited. See also People vs. Albany, 11 Wend., 539.

'But in the case at bar the findings do not clearly set forth what the real facts are. Finding 14, above quoted, is inconsistent with other findings, and particularly with the statement (whether considered as a finding of fact or a conclusion of law) that 'said canal where it traverses the streets of said city is a nuisance per se,' and for this reason the judgment and order must be reversed.

Judgment and order reversed and new trial ordered.

Another Horse and Buggy Stolen.

Last Sunday evening Draper Fowler hitched a sorrel spotted horse in front of the Congregational church. A double-seated buggy was attached to the horse. When Mr. Fowler returned after the service the rig was gone. This epidemic of horsestealing is becoming monotonous.

Aristocracy and Business.

The aristocracy of Europe has at last set itself to getting a living in the ways of less exalted people—that is, by trade and barter. Whether we who buy of them have not to pay a pretty penny for the honor is another question, but it is true that the Duke of Edinburgh played in an orchestra last week, and there are six titled dames in London who are in the millinery business, and a very flourishing concern is the Gentlewoman's Tea company, all 60 of whose members have "Hon." before their names. This company has a house in the heart of Bond street, where the would be purchaser may go to taste the wares and be waited on by a scion of nobility in a muslin cap and apron, who handles tea as if she had been born to it. All these wares are imported, blended, packed and sold by the members of the concern.

Then in Paris a baroness and a company of ladies make and sell all manner of fine and delicately perfumed soaps, toilet waters, powder, dentifrice, etc. It is de rigueur to have this whole soap stamped with the crest and monograms of the owner, and these ladies have invented a dainty little cake called "Lawn Tennis Soap," just large enough for once using. The ingenious baroness sits in the shop and entertains her visitors while they select what they wish. But one can fancy only a very bold spirit possessing the audacity to argue about prices or to look at goods without a definite intention of buying. We are sufficiently in awe of the shoplady as she is without adding a title to all her other insignia of superiority.—Hartford Courant.

FORESTERS' PICNIC.

LARGE ATTENDANCE AT THE FAIR GROUNDS.

Winners of the Different Races—A Very Successful Affair.

The picnic given by the Foresters last Sunday at the fair grounds was a very enjoyable one. Nothing occurred to mar the pleasure of the day, which was an ideal one for a picnic. The arrangements made for the entertainment and comfort of the guests were all that could have been desired, and the committee having them in charge deserves great credit therefor. It was the first picnic ever given by the A.O.F. of A., and they have cause to feel proud of its success. The attendance was very large.

The day was spent in games, races and dancing. Music was furnished by the Park band, and the pavilion, where the dancing took place, was well attended by the votaries of terpsichore. The races and other athletic sports were watched with interest. There were bicycle, foot and sack races, the winners receiving handsome prizes. The medals awarded to the successful contestants were given by Court Yosemite, A.O.F.

Following are the names of the winners of the events, the prizes and the donors:

Boys' race, 100 yard dash—won by J. H. Fairwenther in 19 seconds; prize, a pair of trousers, given by T. Solomon.

Boys' race, 100 yards—James Alexander winner; prize, elegant vase, given by the Kutner-Goldstein Company.

Standing high jump—Won by George Elliott; prize, box cigars, given by C. S. Greenberg.

Bicycle race, one mile scratch—Won by Robert G. Barton; prize, gold medal. Time, 3.03 1-5. C. E. Henry came in second and received a gold pin, given by M. Saier.

Bicycle race, one-half mile scratch—Mr. Dallas of Merced winner; prize, silver medal. Time, 1.20 4-5. C. W. Bearrup won the second prize, set of knives and forks, presented by Barrett, Hicks & Co.

Bicycle race, 2-mile handicap—Won by C. W. Bearrup of Berenda, who received a gold medal. Robert Barton came in second, and got a silver medal. Time, 6.15 3-5. This contest was very close, Bearrup winning by a few feet. The time in the bicycle runs was somewhat slow, due to a great extent to the stiff breeze which was blowing.

Sheriff Jay Scott and J. Ewing were timers in these races, Louis Hurt and J. L. Welty starters, and F. E. Happock, C. T. Sierra and W. L. Johnson judges.

The judges on waltzing were B. F. Shepherd, Dr. Green and Dante R. Prince. The following were the winners:

Best lady waltzer, Miss Nellie Wilds; prize, perfumery set, furnished by the Golden Rule drug store. Second best lady waltzer, Miss Etta Urban; spring bonnet, given by Mrs. Nutt of the Boston milliner store.

Best gentleman waltzer, F. E. Hoppock; prize, $5 pair of suspenders, given by Hart & Levy.

Second best gentleman waltzer, Ezra Packard; box of cigars, given by Langley & Levy.

Typographical Union Election.

At a meeting of Fresno Typographical Union No. 144 on Sunday the following officers were elected and installed: President, P. H. Hurley; vice-president and chairman of executive committee, G. H. Martin; secretary, Frank Tiernan; treasurer, H. E. Chamberlin; sergeant-at-arms, Ed Hamilton; executive committee, A. E. Fay, A. R. Noyes, C. J. Anderson. Tiernan and Chamberlin were reelected to their respective offices and complimented for their efficiency and accuracy.

Charleston Discharged.

C. Charleston, accused of burglary, was taken before Recorder Clark yesterday afternoon and discharged, it appearing that the alleged crime was committed outside of the jurisdiction of the court. He was not rearrested, the prosecution evidently having become satisfied.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and $1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

That Mysterious Shot.

The mysterious pistol shot heard on I street on the night of the '89-'90 Social Club party has been explained. W. Parker Lyon had received on the day before a collection of velvet plush chairs and lounges, formerly the property Lily Langtry. Of course on being taken so suddenly from the fogs of London into the crisp air of Fresno, the Lily's favorite lounge cracked with a loud report. This is what the passersby thought was a pistol shot.

MALARIA HERE AND CHOLERA COMING

"Every Disease of Age We May Prevent, Like Those of Youth By Being Diligent."

Philosophy has accumulated precept upon precept warning you against future calamities.

The people residing in the San Joaquin valley know too well what they have suffered from the ravages of MALARIA last year, consequently they ought to anticipate the monster's coming the present season.

The wonderful discovery of Dr. E. F. Brown, the specialist, his treatment, inoculation by absorption, the antidote immediately arrests the progress of the malarial poison, followed then by a 21 day's course of treatment, the system is thoroughly cleansed from every trace of the disease and rendered proof against further attacks.

Investigate personally. Full and complete information will be furnished you at The Radical Cure Dispensary, 1745 Mariposa street, Fresno. Consultation free for all.

The Specialist, Dr. E. F. Brown, will arrive at his Fresno office on Saturday, May 6th, remaining only one week.

He comes for your especial benefit. He is both competent and candid, and should be consulted regarding your long standing chronic ills.

His reputation as a skillful physician and surgeon requires no further proof than that of those among you who have already been healed and are grateful.

Dr. Laura A. Harris, the business associate of Dr. Brown, now in charge of the Radical Cure Dispensary, is just acquiring for herself a reputation that comes only to those of true worth.

The ladies and children suffering from MALARIA or Chronic ailments should consult her at once.

Those who contemplate seeing the Specialist should not delay, but present themselves early, for his time is both valuable and precious; and remember that Dr. Brown will not undertake your case if, in his estimation, it is incurable.

A cheap rate will be given to all presenting themselves on the day of his arrival—Saturday, May 6th.
